SUMMARY

Frontend Developer with 2 years of experience in React.js. Skilled in building dynamic, responsive web applications using HTML, CSS, JavaScript, and Redux. Strong problem-solving skills and attention to detail. Proven team collaborator committed to high-quality user experiences. Seeking a challenging role to enhance and apply my frontend development expertise.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript

Deep Learning Library: React.js, Redux toolkit , Jest Testing Library

Styling: HTML, CSS, Material-UI, AG Grid

Additional Tools: Git, ApexCharts, WebSocket

PROJECTS

Tramo Pro   June 2023 – Oct.2024
Financial Transaction Management System (https://dev.app.tramo.pro)   *React.js,Redux,Material UI*

- Built two portals: an admin panel for company to oversee transactions and an agent portal for users to perform transactions.
- Developed the "Tramo Pro" platform with Admin and Partner portals.Partner portal to manage transactions, API documents, update API credentials, and whitelist server IPs and callback URLs.Admin panel to regulate and oversee transactions performed by API users. Transactions.
- To display transaction details in a table with AG Grid, and implement a search filter along with pagination.
- Developing and maintaining the "Paydash" platform, a transaction management service for fintech applications.
- Collaborated with cross-functional teams to ensure seamless integration of APIs for services such as recharge, money transfer, bill payment, and AePS transactions.

Gamut   April 2022 – February 2023
Advertising Agency   *React,Typescript ,Tailwind*

- Gamut serves as a comprehensive platform designed to facilitate advertising services across prominent social media platforms such as YouTube, Instagram, and Facebook. As a Frontend Developer, I had the opportunity to:
- Developed and implemented user-friendly front-end components using React.js and TypeScript.
- Show data into table form with help of the AG Grid and adding search filter and pagination.
- Ensured high performance and compatibility across various web browsers and devices.

EXPERIENCE

Tramo Technolab Private Limited   June 2023 – Present
Frontend Developer   *Noida, Sector 63*

- Tramo Technolab is a dynamic fintech company at the forefront of digital innovation, empowering seamless transactions in the realms of recharge, BBPS (Bharat Bill Payment System), and AEPS.
- . Developing sleek and intuitive user interfaces using Material UI framework. And implementing robust authentication guards to enhance the security of the application, ensuring that only authorized users have access to sensitive features and data
- Implementing Websocket functionality to enable real-time communication between users, enhancing the interactive experience.

Tech Compiler Data System   April 2021 – Feb 2023
Frontend Developer   *Grugram, Sector 48*

- Worked on the "Gamut" project, an aggregator platform for running marketing campaigns across social media platforms.
- Implement Websocket to enable real time user chat feature in the Gamut Platform.
- Collaborated with designers and backend developers to deliver cohesive and efficient applications.
